Professional Summary

Motivated Computer Science student with a strong focus on cybersecurity, ethical hacking, Linux security, networking, and CTF competitions. Experienced in solving challenges across forensics, cryptography, general skills, and binary exploitation, with practical knowledge of Python, C++, Linux, and security concepts. Also skilled in backend and web development using Python and Django, including building a full-featured Event Management System with role-based access control, secure authentication, email integration, and PostgreSQL. Additionally experienced in game development with Godot and GDScript. Seeking a cybersecurity internship, with a strong interest in backend development and secure software engineering.

Education

B.Sc in Computer Science & Engineering

Rajshahi University of Engineering & Technology (RUET), Rajshahi

Expected Graduation: 2028

Technical Skills

- **Languages:** Python, C++, C, Java, JavaScript, TypeScript
- **Web Development:** React, Vite, Django, HTML, CSS, Tailwind CSS
- **Databases:** PostgreSQL, MySQL, SQLite
- **Tools & Technologies:** Git, GitHub, Linux, Kali Linux, Pillow, python-decouple
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures, Algorithms, Role-Based Access Control (RBAC)
- **Other:** IoT (ESP8266), Godot Engine, Shell Scripting

Projects

Event Management System (Full-Stack Django Application)

github.com/ridowan01/event-management

Developed a Django-based event management platform with role-based access control, secure authentication, event management, image uploads, participation features, and automated email notifications.

Technologies: Python, Django, PostgreSQL, Tailwind CSS, JavaScript

Tiny Weather

github.com/ridowan01/Tiny-Weather

Built a fast, modern weather application providing real-time weather updates, forecasts, and a clean user interface.

Technologies: React, Vite, TypeScript, Tailwind CSS, APIs

Tiny Movie Explorer

github.com/ridowan01/Tiny-Movie-Explorer

Developed a responsive movie discovery tool allowing users to search, browse, and explore detailed information about various movies dynamically.

Technologies: React, Vite, TypeScript, Tailwind CSS, APIs

Mythic Odyssey (2D Action RPG Game)

<https://github.com/ridowan01/Mythic-Odyssey>

Developed a feature-rich 2D top-down action game with character customization, combat, quests, and progression system.

Technologies: GDScript, Godot Engine

Bus Ticketing System (Desktop Application)

Built a complete desktop app with admin and user dashboards for ticket booking, schedule management, and earnings tracking.

Technologies: Java, Java Swing, JavaMail

LPG Supervision System (IoT Project)

<https://github.com/ridowan01/HardwareProjects/tree/main/LpgSuperVision>

Real-time LPG level monitoring system using NodeMCU (ESP8266) with web dashboard and alert system.

Technologies: Arduino, HTML, CSS, JavaScript

Achievements & Competitions

- My team has become **#217** in **BCS CTF 2026**.
- Participated in **TryHackMe Hacker Holidays** contest.
- **picoCTF 2026** – Team White Shadows secured **Global Rank 1277** (Score: 5000). As team leader (kuze713), contributed **2400 points** solving challenges in Forensics, General Skills, Cryptography & Binary Exploitation.
- **RUET Cyber Security Club CTF** – Secured **37th position**.
- **Integrated Hackers Initial CTF 2023** – Ranked **121st**.
- Qualified for **Semi-Finals (Round 2)** of SOLVIO AI Hackathon 2025 (Team NeuralNewbies).
- Strong problem-solving background through consistent participation in Codeforces, LeetCode, and CodeChef.

Certifications

- **Introduction to CIP** - OPSWAT.SSO (March 2026)
- **Competitive Programming** – Phitron (Sep 2025)
- **Linux Server Management and Security** – University of Colorado System (May 2025)
- **Hands-on Introduction to Linux Commands and Shell Scripting** – IBM (May 2025)
- **Networking Fundamentals** – Akamai Technologies (Mar 2025)

Additional Information

- Strong communication and teamwork skills
- Fast learner with attention to clean and maintainable code
- Interests: Backend Development, Cybersecurity, Game Development
